## § 02 — THE LOGO

# The mark, room to breathe.

PRIMARY LOGO — OLIVE-FOODS-LOGO.SVG

## THE MARK

olive-mark.svg — the compact olive-branch icon.  
Used in the nav bar, favicon and business cards  
where the full wordmark won't fit.

**CLEAR SPACE** Keep clear space around the logo — the mark's height.

**MINIMUM SIZE** Never place the mark below 14 mm / 40 px wide.

**BACKGROUNDS** Cream or white; on forest grounds, use a cream chip.

**DON'T** Recolour, stretch, rotate, add effects, or box it in.

## § 04 — GRADIENTS

# The signature wash.

Headlines use a forest→olive gradient — the brand's most recognisable move. Two variants:

## Excellence You Can Taste.

.TEXT-GRADIENT-GOLD · ON LIGHT

## Quality You Can Trust.

.TEXT-GRADIENT-GOLD-DARK · ON FOREST

## SURFACE GRADIENTS

### Forest wash

forest-deep → mid → accent  
Section backdrops, tagline band

### Accent CTA

accent → gold-light  
Buttons, chips, highlights

## CSS — VERBATIM FROM INDEX.CSS

```

```

## § 06 — UI &amp; STYLE

# How the pieces feel.

## BUTTONS

## CARDS

## DIVIDERS &amp; EYEBROWS

## · SECTION EYEBROW

Tracked uppercase labels in olive; accent→transparent hairline rules separate sections.

## § 07 — VOICE &amp; SUPPORT

# Sound like a partner.

“A supply chain is really a chain of relationships.”

## 01 Relationships, not transactions

Write like a long-term partner, not a vendor closing a sale.

## 02 Precise, not corporate

Concrete nouns — bonded warehouse, cold chain — not buzzwords.

## 03 Warm, not casual

Confident and human. Never slangy, never stiff.
